

Dwel+

The sliding door has a modern and functional sliding mechanism that is really silent. Available with short pull handle or up to the floor one.

La porta scorrevole dispone di un moderno e funzionale meccanismo di scorrimento davvero silenzioso. Disponibile con maniglia corta o fino a pavimento.

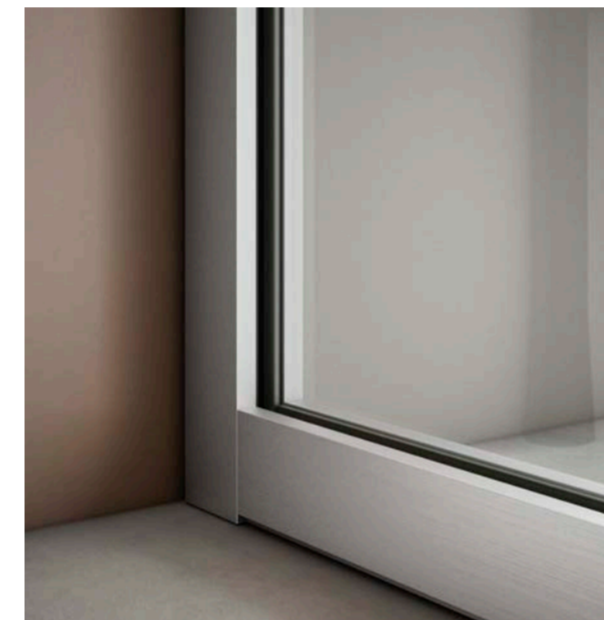

The system also includes a new minimal profile that is almost invisible and has little impact for assembling solid or glass doors on the wall compartments.

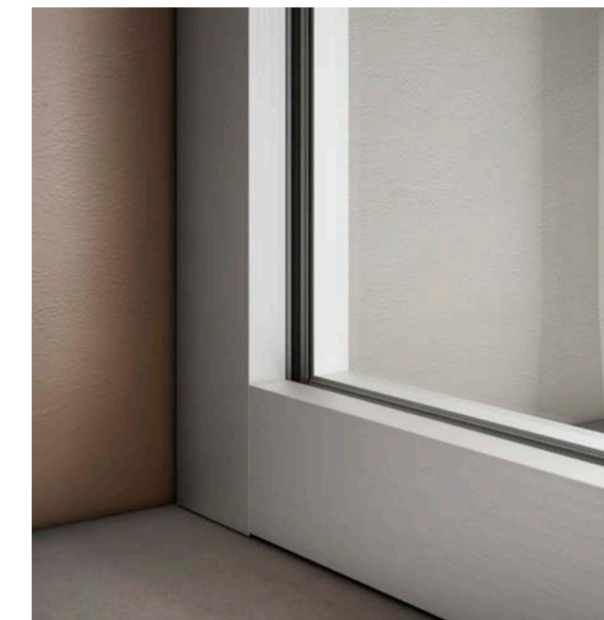

Il sistema prevede anche un nuovo profilo "minimal" quasi invisibile e poco impattante per montare porte in legno o cristallo su vani in muratura.

Extra Catalog_Dwel+

The new systems have been designed with glass containment profiles reduced in height and width, to offer the maximum possible transparency.

I nuovi sistemi sono stati pensati con profili di contenimento delle lastre in cristallo più ridotti sia in altezza sia in larghezza, in modo da offrire la massima trasparenza possibile.

Even the new frame for swing doors is less impactful and more minimalist, without disregarding the structural strength of the entire partition system.

Anche il nuovo telaio per porte battenti risulta meno impattante e più minimalista, senza trascurare la tenuta strutturale di tutto il sistema parete.
